The Public Works Department is pleased to provide you with this quarterly update of the City's Capital Improvement Program (CIP). The program covers: street, concrete, and traffic improvements (including sidewalk, curb and gutter), parks, and city facilities improvements. Projects are currently under construction or are in the planning and design phases.

CURRENT PROJECTS

Traffic Signal Installation Project, Marine and Osage Avenue Intersection: Staff performed a traffic safety study to review vehicle and pedestrian traffic volumes at Marine and Osage avenues. Currently, Marine Avenue has two lanes of travel in each direction and is classified as an east-west minor arterial roadway. There is a marked yellow crosswalk across Marine Avenue on the westerly side of the intersection, along with advanced Slow School Xing markings, overhead flashing beacons, and pedestrian crossing signage. Hartzog and Crabill, Inc., the City's traffic engineering consultant, is working with staff to design a fully actuated traffic signal at the intersection of Marine and Osage avenues. The scope of work for design will include utility research and coordination, potholing, survey, traffic signal plans, signing and striping plans, traffic signal timing and construction cost estimates. The construction phase for this project is anticipated to begin in the latter part of Spring. The project is being funded with STP-L funds.

Traffic Signal Modification Project, Intersection of Manhattan Beach and Hawthorne Boulevards: The City of Lawndale awarded a contract to Hartzog & Crabill, Inc. for the design modification of the traffic signal at the intersection of Manhattan Beach Boulevard and Hawthorne Boulevard. This project will provide a protected, permissive left-turn signal that will improve the operational effectiveness and safety of the current left-turn configuration on Manhattan Beach Boulevard for both eastbound and westbound directions. The project is funded with Measure R funds.

Road Maintenance and Rehabilitation Project, W. 149th, W. 160th and W. 167th Streets: This project is an investment in our local streets and roads infrastructure with a focus on basic maintenance and safety and includes pavement improvements, street striping, street reconstruction, repairing damaged sidewalk, driveway, curb and gutter. The improvements will be on W. 149th Street from Hawthorne Boulevard to Larch Avenue, W. 160th Street from Hawthorne Boulevard to Freeman Avenue, and on W. 167th Street from Hawthorne Boulevard to Freeman Avenue. This project is funded with Gas Tax (SB1), TDA and Measure R funds. The project is anticipated to begin in the Spring.

Concrete Repair Project: The project includes repairing damaged sidewalks, curbs and gutters, cross gutters, alley gutters, curb return ramps, driveways and alley approaches. The project boundaries are as follows: east of Hawthorne Boulevard, south of W. 166th Street, west of 405 Freeway and north of Redondo Beach Boulevard. The project will be funded using Redevelopment Agency Bond Proceeds. The construction phase is anticipated to begin in February.

Inglewood Avenue Widening

Project: Phase I and II of the project is from Manhattan Beach Boulevard north to the I-405 Freeway northbound on-ramp including the Marine Avenue intersection. The project will include construction of a right turn pocket, pavement resurfacing, crosswalk and traffic signal replacements, utility relocation, curb, gutter, traffic striping and other roadway modifications. Phase III of the project will resurface Inglewood Avenue from Rosecrans Avenue south to W. 153rd Street. Inglewood Avenue will be improved using rubberized asphalt and street striping as well as traffic signal modification at the intersection of W. 147th street and Inglewood Avenue. The project will also provide a continuous sidewalk that will be 10 feet in width spanning from Lawndale High School northern limits to Marine Avenue. Also included will be a raised landscaped median island with attractive landscaping and irrigation elements, traffic signal synchronization, street striping, and other roadway modifications. The project is in the final design phase and is expected to be completed this coming February. Staff is in the process of seeking an extension of the funding window for phase III of the project at which time the project timeline will be amended to meet the established project schedule. Phases I and II of this project will be completed using the following grant funds: Los Angeles County Measure R, California State Proposition C and other federal grant funds.

Wall of Distinction Adds Longtime Resident and Volunteer

After recently passing away on December 17, 2018, the Lawndale City Council moved to induct longtime resident and volunteer, Charmaine Doty, to the Wall of Distinction.

Ms. Doty moved to Lawndale in 1968 and remained in Lawndale for the next 50

years. Outside of being a competitive race car driver in the late 60's and 70's, Ms. Doty was a dedicated volunteer for the City of Lawndale for approximately three decades.

Her volunteer efforts for the City included planning and organizing Lawndale's free food distribution program which she took great joy in participating in. As well, Ms. Doty was a longtime member of the City's Beautification Committee and regularly attended City special event programs representing the committee. Ms. Doty was also a member of the City's Youth Day Parade Volunteer Committee for 12 years and rarely missed a meeting.

In 2001, Ms. Doty was acknowledged for her extensive volunteer efforts and was the 27th recipient of the Los Angeles County Commission on Aging Outstanding Older American Award recognized by the Los Angeles County Board of Supervisor's second district for her dedication to volunteerism.

The Wall of Distinction program posthumously honors individuals who had distinguished themselves in the City of Lawndale by providing exemplary volunteer service to the City.

Short-Term Rentals Not Permitted in Lawndale

With the ever increasing amount of short-term rental properties becoming more common, local municipalities have been faced with new challenges stemming from the rise of people seeking short-term rentals for extended periods of time. Some common problems associated with short-term rentals may include, reduction of available street parking, decreased usage of hotel and motels, and the removal of permanent housing from long term renters, potentially driving up rental prices on traditional rental units.

Additionally, communities which allow short-term rentals often see increased calls for service from residents for complaints stemming from noise, foot traffic and trash. This upswing in nuisance calls further drains public safety resources by taking away Sheriff's department personnel from more pertinent day to day tasks.

In response to these issues, the City of Lawndale passed an ordinance in 2017 prohibiting short-term rentals within the community. Lawndale Municipal Code 17.48.065 prohibits short-term rentals from being made available by property owners in all city residential zones. Code Enforcement Officers who become aware of property owners violating this ordinance will open code enforcement cases and require property owners to demonstrate that properties have not been altered to accommodate short-term housing.

Code Enforcement Officers will also confirm that the lease terms of any properties being rented will be for longer than the 30 day minimum terms allowable by this ordinance. Code Officers will also require property owners to obtain a business license from the city to operate their property as a rental.

If you suspect any residences or businesses are using their properties as short-term rentals, please contact the Municipal Services Department and report the situation so the code enforcement team can investigate.

Las viviendas de renta a corto plazo, no están permitidas en Lawndale

Con el continuo incremento de propiedades de alquiler a corto plazo, las municipalidades locales se han enfrentado a nuevos retos los cuales surgen de gente que busca propiedades de alquiler a corto plazo, por largos períodos de tiempo. Algunos problemas comunes asociados con las propiedades de alquiler a corto plazo pueden incluir reducción de estacionamiento disponible en la calle, disminución del uso de hoteles y moteles (por lo tanto, afectando los ingresos fiscales de la ciudad), y la eliminación de propiedades de alquiler a largo plazo, lo que podría incrementar el costo del alquiler en las unidades de alquiler tradicionales.

Además, las comunidades que permiten alquileres a corto plazo, frecuentemente ven un aumento en las llamadas de servicio por parte de los residentes, por quejas que surgen por ruido, tráfico peatonal y basura. Este aumento en molestia de llamadas, hace que los recursos de seguridad pública y el personal del departamento del Sheriff, se vean aún más afectados por las tareas diarias más pertinentes.

En respuesta a estos problemas, la Ciudad de Lawndale aprobó una ordenanza en 2017, prohibiendo las propiedades de alquiler a corto plazo en la comunidad. El Código 17.48.065 de Lawndale prohíbe que los propietarios de viviendas de alquiler a corto plazo estén disponibles en todas las zonas residenciales de la ciudad. Cuando los oficiales encargados de hacer cumplir los códigos, tengan conocimiento de propietarios que estén violando esta ordenanza, abrirán casos de cumplimiento de códigos y requerirán que los propietarios de viviendas demuestren que sus propiedades no han sido modificadas para acomodar una vivienda de alquiler a corto plazo.

Los oficiales encargados de hacer cumplir los códigos también confirmarán que los términos del arrendamiento de cualquier propiedad alquilada, será mayor a los 30 días mínimos permitidos por esta ordenanza. Los oficiales encargados de hacer cumplir los códigos también requerirán que los propietarios obtengan una licencia comercial de la ciudad, para operar su propiedad como una vivienda de alquiler.

Si usted sospecha que cualquier residencia o negocio está siendo usado como una vivienda a corto plazo, favor de contactar al Departamento de Servicios Municipales y reporte la situación para que el equipo que hace cumplir este código, pueda investigar.

Actualización del Programa de Mejoras Importantes de Primavera y Verano de 2019

El Departamento de Obras Públicas se complace en brindarle a usted este reporte trimestral del Programa de Mejoras Importantes de la Ciudad (CIP). El programa comprende: calles, concreto, mejoras al tráfico (incluyendo banquetas y coladeras), parques y mejoras a los servicios de la ciudad. Los proyectos se encuentran actualmente bajo construcción o están en la etapa de planeación y diseño.

PROYECTOS ACTUALES

Proyecto de Instalación de Señales de Tránsito, Intersección de las Avenidas Marine y Osage: El personal llevó a cabo un estudio de tráfico seguro para revisar los volúmenes de tráfico vehicular y peatonal en las avenidas Marine y Osage. Actualmente la Avenida Marine cuenta con dos carriles de tránsito en cada dirección y está clasificada como una avenida arterial menor de este a oeste. Tiene cruceo peatonal marcado en amarillo para atravesar la Avenida Marine en el lado oeste de la intersección, contando también con marcas de **Slow School Xing**, y faros intermitentes sobre el

cruce, y señalamientos para el cruce peatonal. Hartzog y Crabill, Inc., el ingeniero consultor de tráfico de la ciudad, está trabajando con el personal, para diseñar una señal de tránsito completamente accionada, en la intersección de las Avenidas Marine y Osage. El diseño del trabajo comprenderá la búsqueda y coordinación de los servicios públicos, reparación de baches, topografía, planes de señales de tránsito, letreros y las rayas pintadas en el pavimento, ritmo de las señales de tránsito y presupuestos de costo de construcción. La fase de construcción para este proyecto se anticipa que comenzará a finales de la primavera. Este proyecto está siendo financiado por los fondos STP-L.

Proyecto de Modificación de Señales de Tránsito, Intersección de los Boulevares Manhattan Beach y Hawthorne: La ciudad de Lawndale le dio el contrato a Hartzog & Crabill, Inc., para la modificación del diseño de la señal de tránsito de la intersección del Bulevar Manhattan Beach y el Bulevar Hawthorne. Este proyecto tendrá una señal para girar a la izquierda, de manera protegida, que mejorará la eficacia y seguridad de la configuración actual para dar vuelta a la izquierda en el Bulevar Manhattan Beach en dirección tanto al este, como al oeste. El proyecto es financiado por fondos de la Medida R.

Proyecto de Rehabilitación y Mantenimiento de las Calles, W. 149, W. 160 y W. 167: Este proyecto es una inversión en la infraestructura de nuestras calles, con un enfoque en el mantenimiento y la seguridad básica e incluye mejoras al pavimento, repintado de calles, construcción de calles, reparación de banquetas, accesos viales y coladeras dañadas. Las mejoras serán en la calle W. 149, desde el Bulevar Hawthorne, hasta la Avenida Larch. Calle W. 160 desde el Bulevar Hawthorne hasta la Avenida Freeman, y de la Calle 167, desde el Bulevar Hawthorne hasta la Avenida Freeman. Este proyecto es financiado con fondos de los impuestos de gas Gas Tax (SB1), TDA y los fondos de la Medida R. Se planea que el proyecto comenzará en la primavera.

Proyecto de Reparación de Concreto: El proyecto incluye reparación de banquetas y coladeras, desagües, accesos viales, acceso a los callejones. El proyecto está limitado de la siguiente manera: al este por el Bulevar Hawthorne, al sur por la Calle W. 166, al oeste por la autopista 405 y al norte por el Bulevar Redondo Beach. El proyecto será financiado usando los Bonos de la Agencia de Redesarrollo. La fase de construcción se planea que comenzará en febrero.

Proyecto de Ensanchamiento de la Avenida Inglewood:

La Fase I y II del proyecto, es desde el Bulevar Manhattan Beach al norte de la autopista I-405, al norte de la rampa de acceso, incluyendo la intersección de la Avenida Marine. El proyecto incluirá la construcción de un pequeño carril para dar vuelta a la derecha, rejuvenecimiento del pavimento, cruce peatonal, y reposición de señales de tránsito, reubicación de servicios de la ciudad, banquetas, coladeras, rayas pintadas en el pavimento, y otras modificaciones a las calles. La Fase III del proyecto renovará la Avenida Inglewood, desde la Avenida Rosecrans al sur, hasta la Calle W. 153. Se mejorará la Avenida Inglewood, usando asfalto de goma y rayado de calles, así como modificación de señales de tránsito en la intersección de la Calle W. 147 y la Avenida Inglewood. El proyecto también brindará una banqueta continua de 10 pies de ancho de Lawndale High School hasta llegar al límite al norte de la Avenida Marine. También incluye levantar la isla del camellón con un atractivo jardín y elementos de irrigación, sincronización de señales de tránsito, rayado de calles y otras modificaciones a la calle. Este proyecto se encuentra en la fase final de diseño y se espera que se complete en febrero. El personal está en proceso de buscar una extensión en la ventana de fondos para la fase III del proyecto en cuyo momento el tiempo del proyecto se modificará para cumplir con el tiempo anticipado. Las Fases I y II de este proyecto se completarán financiadas por los siguientes fondos: Medida R del Condado de Los Ángeles, Propuesta C del Estado de California y otros fondos de subvención federal.
